

MSGPTA Program

Books for 2024/2025

The following books are required textbooks for the MSC PTA Program. Program textbooks are used throughout the program in multiple courses not only in those listed. The faculty will make reading assignments from all program books throughout the program. Students acquire books two times during the technical portion of the program.

Students are encouraged to use a format of the book that allows for annotations. If digital books are acquired, the student should be able to take digital notes. Active engagement with reading is required.

Spring 2024
